

Sit down with a trusted grown-up and check the privacy and safety settings on the device or devices you use.

- ☐ Check the device has a screen lock (a PIN, pattern or fingerprint).
- ☐ Turn off location sharing on the apps you do not need it for.
- ☐ Make sure a grown-up's permission is needed before anything is downloaded.
- ☐ Turn off the microphone and camera permissions on games that do not need them.
- ☐ Check the privacy settings on the web browser or search app.
- ☐ Turn on automatic security updates.
- ☐ Check who can see your posts and profile, and set them to private.
- ☐ Agree to charge the device overnight away from the bedroom.

For the teacher — this also covers:

PSHE (family online safety); a real-world home task shared with families; reading and following a checklist.
