

Verify First

Ages 11–14 · classroom poster

1

Check the source first: who posted it, and is the account real and verified?

2

Search trusted news sites to see if they report the same story.

3

Do a reverse-image or reverse-video search to find where it came from.

4

Remember a good fake can look perfect. The video alone is not proof.

5

Pause before you share. Strong feelings are a sign to slow down and check.

Pause, think, and check before you share.
